Bike3

~~\$4,000~~ \$3,400 (15% off) **[Add to cart]**

★★★★ (30 Ratings)

Trek Bicycle, Released: June 2015

Features: Steel frame, Disc brakes, Under 30lbs., 24 speed,

Bike3 is the ultimate fusion of power, aerodynamics, ride quality, and integration. There are no two ways about it: the first true superbike is a marvel of road bike engineering. Every detail of Bike3 is engineered for unprecedented futuristic performance, ride quality, and efficiency, putting every single watt you earn toward demolishing your competition.

Reviews

★★★★ **Good for long rides**, by Erin S in New York.

Really have no complaints about this bike. It's really what I have come to expect from trek at this point. Responsive, aero but light, and about all comfortable. I must add that I am a fan of the pink.
