Fit and performance

6

N0.1
Our fastest & lightest bicycle. For fast city riding, commuting, and touring. Shorter wheelbase, narrow tires, and aggressive geometry for a quick, responsive ride.

N0.2
For quick trips around town, with big slick racing tires and a smaller diameter rear wheel for acceleration. Light, comfortable, and fun. Relaxed geometry and low standover for easy on and off.

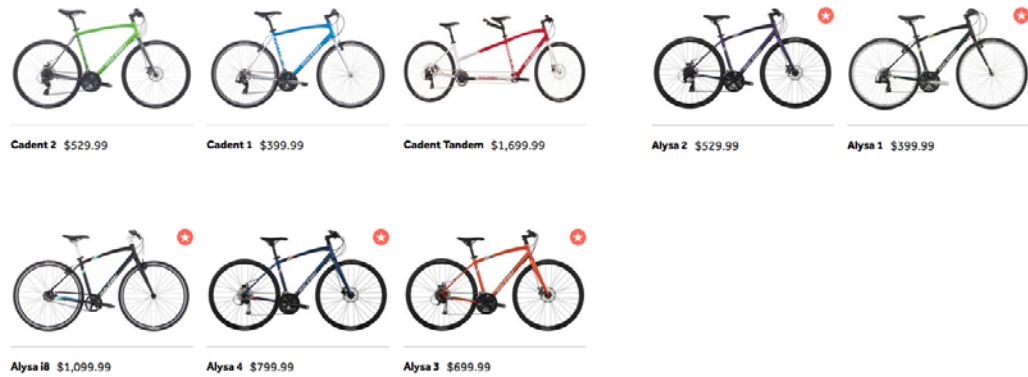

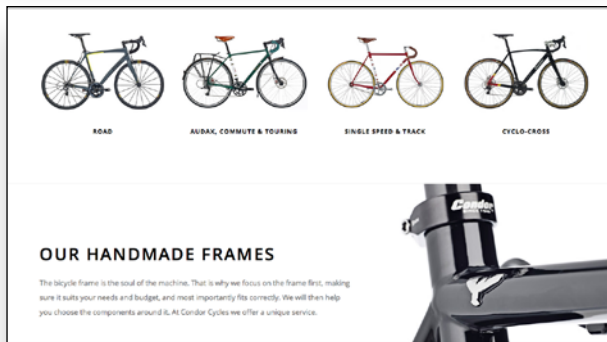

N0.3
The ultimate all-around city bicycle. Big 29-inch wheels and 2-inch tires roll over just about anything. Quick and comfortable, long wheelbase for stability and an exceptionally smooth ride.

N0.4
Responsive compact bicycle for big city riding. Full-sized cockpit, fast geometry, and ultra-short wheelbase for snap handling and acceleration. Fits easily in small apartments, elevators, trunks of cars.

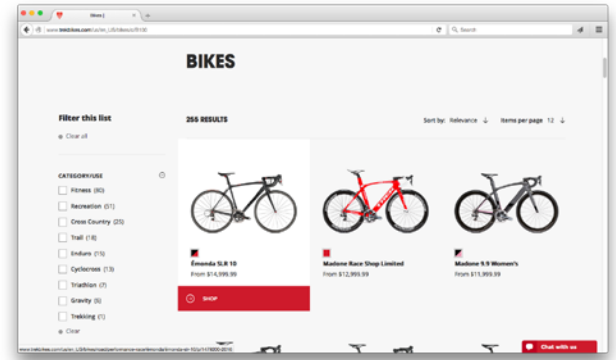

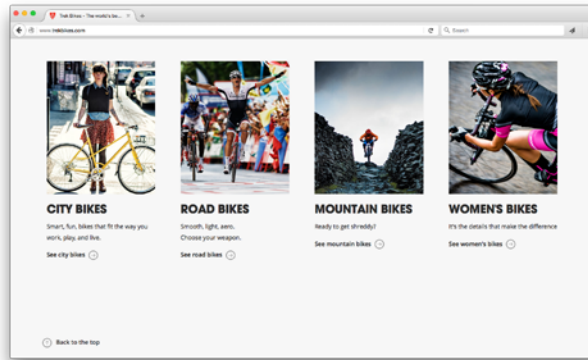

N0.5
Elegant step-through frame ultimate all-around city! 29-inch wheels and 2-inch tires just about anything. Fast geometry, longer wheelbase for a smooth ride.

Trek

Performance

Raleigh

Trek

- Main header includes logo, dropdown menu with 5 options (Bikes, Equipment, Apparel, Inside Trek and Travel), Cart
- Large slider image advertising new Trek models for sale
- *See the bikes* link below slider opens “Cyclocross” page (Bikes > Road > Cyclocross).
- Clicking on “Bikes” from main page dropdown menu calls up 4 categories (Road Bikes, Mountain Bikes, City Bikes and Collections). The first 3 categories include subcategories for product lines.
- The category titles, subcategory titles and product lines are all clickable links leading to corresponding pages.
- The pages for these categories include: a description below the title, a list of filters to define the search and a sortable list of search results in the category with a photo of the model, its title, lowest price and available colors.
- Clicking on model links to dedicated page with tech specs, more photos and purchasing options.

Performance

- Header contains help center, find local store, “my account” and shopping cart
- *Shop by Category* menu on left has 11 options {Bikes & Frames, Bike Parts & Components, Tires, Tubes & Wheels, Cycling Clothing, Shoes & Pedals, Helmets & Sunglasses, Nutrition & Hydration, Lights & Accessories, Bike Tools & Transport, Bicycle Trainers, Outlet Store}
- Other options on main page: Shop by brand, New Products, Learning Center, Search for keywords or item #s
- Hover on *Shop by Category > Bikes*: calls up more category lists (Road Bikes, Mountain Bikes, Bike Frames, Path & Pavement Bikes, BMX Bikes, Kid's Bikes) which head lists of subcategories i.e. City Bikes, Commuter Bikes, Cyclocross.
- Clicking on the category titles or subcategory items calls up page with description and up to 18 filters to define the search. Clicking on filter on side menu: expands to reveal all possible choices (brands, sizes, genders, colors, etc.)
- Product pages: image, pricing comparison, colors, sizes, locate store, cart options, overview, specs and reviews.

Raleigh

- Homepage features scrolling handrawn illustration with messages. Viewing all bike categories calls up the illustration as a menu: hovering over sections of drawing reveals 3 options (Bikes for the City, Bikes for the Open Road, Bikes for the Dirt)
- 5 dropdown options under “Bikes” in homepage upper navigation (City, Open Road, Dirt, Youth, View all Categories).
- Clicking on first 3 options calls up page with a video promotion from Raleigh, emphasizing the company’s focus on quality over trends or flashiness.
- Scrolling down bike category pages: organized into sections based on use, not brand (i.e. Classics, Around Town, Neighborhood, Ebikes, Youth).
- Bike models organized by picture in profile, then list name and price. Clicking on item calls up page with name, price, large image, comparison option, recommended size and other bikes in series.
